## EMERGENCY TELEPHONE NUMBERS

To Phone  
POLICE ----- Dial 2321

To report a  
FIRE ----- Dial F-I-R-E

Give Exact Location: Give the name of the building and the floor level where the fire is.

And Strike The Nearest Fire Alarm Box.

\* \* \* \* \*

If life is in peril, aid in evacuating personnel to a safer area. Fire condition may allow for removal of patients and personnel without leaving the building. KNOW ALL EXITS. KEEP EXITS CLEAR.

If there is no life hazard, try to put out the fire with nearby fire-fighting equipment. BE SURE YOU KNOW THE LOCATION, TYPE AND LIMITATIONS OF ALL EXTINGUISHERS IN YOUR DEPARTMENT.

If possible, send someone to meet firemen at the nearest entrance to the building.

When traveling and living in strange quarters, remember these:

### 7 STEPS TO SAFETY

1. Know the nearest regular and emergency exits of any building you may be in.
2. If you detect fire or smoke, act quickly but coolly. Notify the telephone operator or other source of help. Give exact information.
3. Feel of a door before you open it. IF IT IS HOT, KEEP IT CLOSED! Close transoms and cover cracks around the door.
4. Take no unnecessary chances to get out of the room. Unless in immediate danger, you may be safer where you are.
5. If the door is cool, open it a little. If the hall seems safe, leave by a known exit.
6. If you must leave through heavy smoke, stay close to the floor. A wet cloth over your face may help breathing.
7. Close doors and windows behind you to reduce drafts and the spread of fire.

USE OF TELEPHONES1. Inside Calls:

Lift the receiver to the ear and listen for the dial tone, then dial the extension desired. If using an extension off the main terminal, be careful that the other phones on the same terminal are not in use. If in use, hang up or press hold button and hang up, depending on the type of phone being used. To place a second call, hang up long enough to clear the equipment.

2. Chicago Calls:

Listen for the dial tone, then dial "9" for an outside line. Listen for a different dial tone, then dial your Chicago number. Outgoing calls cannot be transferred to another extension number here. Incoming calls can be transferred to another extension on this campus.

3. Long Distance Calls:

Dial "0" for the University Operator. She will record your call and complete it, or place it with the long distance operator. Also dial "Operator" when reporting ready to talk on an incoming long distance call.

4. Suburban Telephone Exchanges:

Station calls to some suburban points can be dialed directly. Calls to other points are handled by the University Operator.

5. Telegrams:

Dial the University Operator. She will record your name, city and person called and then connect you to Western Union who will take your telegram.

6. Paging:

Dial 30 to reach the Page Operator. Give the name of the person to be paged, then your name and extension where the person can call you. When answering a page, dial 30 and give your name to the operator and your page numbers. The page operator can be reached only by dialing 30 on the University intercom. system. She does not take calls from the outside.
